### The Russell Williams Case: The Military Star to the Convicted Murderer

*In October 2010, a former Air Force officer, Colonel Russell Williams received two life sentences for first-degree murder, two ten-year sentences for sexual assaults, two ten-year sentences for forcible confinement and 82 one-year sentences for burglary, all sentences to be served concurrently. To begin to understand what could have led to this man's demise and the crimes he committed, his life history as summarized by the press will be reviewed. Fascinated by the presumed uniqueness of this case, the media turned to a number of experts for their respective opinions. This presentation will examine in detail diverging points of view all based, except for one, on inferences.*
